At minimum, Firefox versions 3.5 and higher, Internet Explorer versions 6.0 and higher, and Safari 3.0 and higher must be tested.

LEAN Guidelines

All Ads should adhere to LEAN Ad Standards as defined by [IAB New Ad Portfolio](#).

Additional details

The new guidance creates a more positive user experience by maximizing page load performance. This should also improve the performance of the ad. In addition to new initial load and sub-load max weights, the LEAN guidance dictates the following:

- Use lightweight file loads during initial load of the page
- Eliminate or minimize render blocking scripts like CSS, JavaScripts during initial load
- Use sub-load for rendering ad experiences that require heavy file weights
- Minimize number of files requested during initial load. The maximum number of Initial Load file requests allowed is 10
- Make user initiation required for ad functionality that needs large file downloads
