Autotrader.com Advertising Specifications

Premium Leaderboard | Listings Liners

Description

The Leaderboard and Listing Liners ad placements provide advertising exposure in the highly-trafficked search path, where in-market shoppers are viewing inventory of specific makes and models. It gives advertisers the opportunity to showcase specific models and influence consideration within search results across all devices.

Leaderboard and Listing Liners are pinned across **desktop and mobile** to drive viewability and CPMs higher while reaching the broadest audience

Highlights:

- Viewability over 90%
- Easily sold programmatically and supports Intelligent Ad Disruptions

LEAN Guidelines	<p>All Ads should adhere to LEAN Ad Standards as defined by IAB 2017 New Standard Ad Unit Portfolio.</p> <p>Additional details</p> <p>The new guidance creates a more positive user experience by maximizing page load performance. This should also improve the performance of the ad. In addition to new initial load and sub-load max weights, the LEAN guidance dictates the following:</p> <ul style="list-style-type: none">• Use lightweight file loads during initial load of the page• Eliminate or minimize render blocking scripts like CSS, JavaScripts during initial load• Use sub-load for rendering ad experiences that require heavy file weights• Minimize number of files requested during initial load. The maximum number of Initial Load file requests allowed is 10• Make user initiation required for ad functionality that needs large file downloads
